Annual Meeting – November 29!

As a resident of Whitehills, you are invited to attend the Annual Meeting of the Whitehills Neighborhood Association of East Lansing (WNAEL) to be held on Thursday, November 29 at Whitehills Elementary School. The meeting will begin at 7:00 p.m. and end by 9:00. Major agenda items are:

Property Taxes: City Manager George Lahanas will join us to discuss how our property taxes are used to support City services;

Technology Bond: Superintendent David Chapin will brief us on the potential for a K-12 Technology Bond Election in February 2013.

Rental Licensing Exemptions: Annette Irwin, Administrator of EL Code Enforcement & Neighborhood Conservation, will update us on City Council deliberations concerning proposed exemptions to the rental licensing ordinance.

We will also be presenting the Pride of Whitehills Award to a neighbor who has made significant improvements in his/her property. In addition, the meeting will afford an opportunity to meet new residents who have moved into the neighborhood over the past year.

Around the Yard: Protecting trees and shrubs from cold temperatures_____

Expose your skin to freezing cold and wind, and it'll become dry. Some trees and shrubs react similarly to harsh winter conditions, called desiccation or winter burn and occurs most commonly on sunny days when the soil is frozen and water cannot be used by the

Typical symptoms include: yellowing, browning, or curling needles; bark; dead flower buds; or limp, tired looking foliage. Most are: evergreens, esp. broadleaf types such as rhododendrons, hollies, etc.

What to Do Now:

- Surround susceptible plants with a burlap screen (leave the top open to allow light and air in). This also helps them handle heavy/wet snow loads that can break or bend slender branches or trees (e.g. arborvitae).
- Water, but only if outside temperatures allow and the soil is dry and not frozen.
- Mulch after the soil has frozen to keep it from thawing. Spread straw, shredded leaves, or compost 2 inches deep around the drip line of the plant. Don't let mulch touch the trunk!
- Use antidesiccant sprays as appropriate. These sprays coat the leaves with a waxlike film, helping to protect the leaves from drying out.

An Ounce of Prevention:

- Healthy plants survive winter better so aim to keep them in top condition year round.
- Use hardy plants appropriate for your growing zone and ensure adequate light and water.

WNAEL Neighbor-to-Neighbor Alert System

Don't forget to communicate with your neighbors if you see, hear, or experience anything in our neighborhood that is a safety concern for our citizens. The WNAEL is in contact with the EL police and an email network is available to our paid WNAEL members. It is quick and effective. Our local police liaison has been very good about contacting us when an emergency arises.

Overall, our neighborhood remains quiet and peaceful. Almost all the crime alerts are in reference to surrounding areas. Most of these are drug or alcohol related. As an East Lansing resident, you can get crime notices at crimemapping.com. Also, if you have a safety issue or concern, please contact your neighborhood association at www.wnael.com, email: wnael@wnael.com, or call 517-332-1575.
